«Auréa» is a non-profit association with a humanitarian purpose.

The name “Auréa” means “golden light”. The association’s motivation is «to provoke an attitude of respect and compassion towards all those who are weaker, be it animals or human beings”.

It’s purpose is to aid and assist the most deprived beings who are in need or who suffer from illness, regardless of race, origin or faith.

To this effect, the association can intervene at various levels relative to the wellbeing of beings. From environmental protection, nature and species to medical help, as well as social, ecological, legal and administrative information, education and food aid.

Through providing a support network, “Aurea” wishes to increase the standing of each individual by helping them acquire a material, physical and psychological autonomy, therefore allowing them to regain personal dignity.

In order to bring help to all those in need, “Aurea’s” activity can spread on a national as well as international level, by means of local delegations. These local delegations will answer to the association’s head office and will pursue the purpose of the association, but they will have their own management lay-out.

The association Auréa» can work in partnership with humanitarian associations, whose purposes are to help the deprived, or with other associations who wish to be connected in order to take on a humanitarian dimension.
